not in stock, available in 4-5 weeks

Product information

With the Chameleon Distance Feeder, Orient Rods presents a logical evolution of its successful feeder rod series. This model builds structurally on the proven Chameleon Feeders but has been specifically equipped with improved features and new technological details to achieve maximum casting distance, precision, and efficiency.

The “Distance” series embodies a clear philosophy: practicality, minimalism, modern technology, and maximum performance in non-predatory fishing. With this rod, Orient Rods has combined all these principles into a single model for the first time. In addition, the quivertip mounting area has been standardized with the 200 and FX series, enabling an extremely wide range of applications with tips from 6 to 14 oz.

Features:

- Rod Type: Distance Feeder Rod
- Length: 14 ft
- Casting weight (quivertips): 3–5 oz
- Blank: Thin, very stiff blank in Fir-Tree construction (WIPO patent)
- Blank material: Toray Japan Carbon 55–66 msi (40T + 46T)
- Butt section: Kevlar-reinforced for maximum power transfer
- Very high casting stability and precision at extreme distances
- Casting distance (Flat / Feeder): 200+ meters
- Reel seat: Fuji DPSD17CC with Kevlar coating
- Guides: Orient Rods Titanium S-Series
    - Guide sizes: 30 / 25 / 20 / 16 / 12 / 10 / 10 mm
- End cap: Orient Rods end cap with engraved logo
- Quivertip set included:
    - 12 oz (fluoro white) – 2 guides, Ø 8 mm, 8 mm tulip
    - 14 oz (fluoro yellow) – 2 guides, Ø 8 mm, 8 mm tulip
    - Additionally 8 oz (fluoro red) – 3 rings, Ø 4.97 mm, 8 mm tulip
- Compatible with Quivertips from the Chameleon 200 & FX series (6–14 oz)
- Rod weight: 335g
- Transport: High-quality, durable rod case made of 900D Oxford fabric
- Series: Chameleon Distance Series
