Product information

Length in feet (ft):	13 ft
Test curve (lb):	4.00 lb and more

The name “Distance” leaves no doubt as to this rod’s intended use. With a test curve of 4lb, it is excellent as a spod rod with a maximum casting weight of up to 160g and is equally ideal for use with large PVA bags. It thus covers a wide range of modern carp fishing techniques.

The rod’s light weight, combined with the powerful “All-Wheel-Drive” blank design—which immediately engages the butt section in the action—enables energy-efficient casting over long periods of time, consistently achieving great distances. The sensitive rod tip also allows for effective use even with lighter loads. These features make the rod a true all-rounder for distance and specialized applications.

Features:

- Rod Type: Distance / Universal Carp Rod
- Length: 13ft
- Test curve: 4 lb
- Applications: Spod rod up to 160 g, large PVA bags
- Blank design: Powerful blank with an immediate butt response (“All-Wheel-Drive” characteristic)
- High energy efficiency for long-distance casting
- Sensitive tip for use with lighter weights
- Reel seat: ALPS Forged Carbon Reel Seat
- Guides: ALPS Guides
- Butt cap: Titanium butt cap
- Rod weight: 385g
