The Sonik BiveeBo is a tall, quick-to-set-up, and versatile fishing tent suitable for both short overnight stays and longer fishing trips. The Slick-Speed steel telescopic poles allow for quick setup, while the tall door opening provides comfort and better visibility.

Constructed from 8,000mm HH 210D PU-coated polyester, the BiveeBo ensures excellent waterproofing. Included in the package is a pole set for an extended canopy area; the front door can be used with either a green infill panel or a mosquito net, and two large side vents provide flexible ventilation.

A single zippered rear panel allows access from the back or connection to additional shelters. Two interior pockets provide space for essential items. The tent comes with a Tuff-lite™ removable groundsheet, an oversized carry bag, and sturdy T-pegs and guy lines.

Features:

- Tall, quick-to-set-up, and versatile shelter
