The Sonik BiveeBo Van-Link is a specialized vehicle awning system for the Sonik BiveeBo Shelter, offering maximum flexibility when attaching to tall or low vehicles from the side or rear. It is compatible with vehicles featuring swing-out or tailgate doors and enables a seamless connection between the tent and the vehicle.

Product information

Made from 8,000mm HH 210D PU-coated polyester, the Van-Link ensures reliable weather protection. Three mounting options—roof rack straps, Kaderail, or pole pocket—ensure easy installation on various vehicle types. The elastic connection guarantees a secure, flexible fit. Two side doors in the tunnel area allow for comfortable access.

The Van-Link comes with an oversized carry bag, sturdy T-pegs, and guy lines to provide additional space, protection, and weather functionality for your BiveeBo setup.

Features:

- Special vehicle awning system for the Sonik BiveeBo
- Flexible mounting on high or low vehicles, on the side or at the rear
- Suitable for vehicles with swing-out and tailgate doors
- Three mounting options: roof rack brackets/straps, Kaderail, pole pocket
- Elastic vehicle connection for a secure fit
- Two side doors in the connecting tunnel
- 8,000 mm HH 210D PU-coated polyester, waterproof
- Includes an oversized carrying bag, T-pegs, and guy lines
- Compatible vehicle height: 130–190 cm
