The Nytro Stopitz Large are high-quality line stoppers designed for versatile use in feeder and waggler fishing. They come on a metal wire, making them quick and easy to slide onto the line.

Thanks to their special profile, the stoppers sit straight on the line and ensure a clean, streamlined setup. Compared to conventional stoppers, they are slightly longer and feature flattened ends, which further improves their performance. They are particularly suitable for tying running rigs in feeder fishing and create a clean strike point when the feed basket hits the stopper.

Features:

- Line stoppers for feeder and waggler rigs
- Supplied on metal wire for easy assembly
- Slide effortlessly onto the line
- Special profile for a straight fit
- Streamlined design

Product information

- Longer than conventional stoppers
- Flattened ends
- Ideal for running rigs in feeder fishing
- Ensures a clean strike when the feeder hits the bottom
