The NYTRO NTO-B2 Barbless Method Latex Bait Band Hooks to Nylon are specially designed for method feeder fishing. With a leader length of 10 cm, they are ideal for targeted fishing for F1, carp, or tench.

The rigs are equipped with a durable latex bait band, which is perfect for presenting wafers or hard pellets directly on the feed basket. They feature high-quality Sublime Power Rig Mono, combined with the strong, barbless NTO-B2 offset circle hook with an outward-curved eye. This design ensures reliable hooking efficiency and clean hook sets.

Features:

- Pre-tied with NTO-B2 offset circle hooks
- Barbless
- Hook leader length: 10 cm / 4”
- Integrated latex bait band
- Designed for method feeder rigs
- Tied with Sublime Power Rig Mono
- Clean figure-of-eight loop
