More than 10 PCE in stock

The NYTRO NTO-B2 Barbless Method Bait Spike Hooks for Nylon were specially designed for method feeder fishing. With a leader length of 10 cm, they offer a compact and effective setup for F1, carp, or tench.

The rig is equipped with a bait spike mounted in a loop. This allows for quick and precise attachment of wafters or (pop-up) mini boilies. Made from high-quality Sublime Power Rig Mono and combined with the barbless NTO-B2 offset circle hook with an outward-curved eye, these leaders ensure reliable hooking performance and consistent results.

Features:

- Pre-tied with NTO-B2 offset circle hooks
- Barbless
- Hook leader length: 10 cm / 4”
- Bait Spike in loop rig
- Ideal for wafters and (pop-up) mini boilies
- Designed for method feeder rigs
- Tied with Sublime Power Rig Mono
