More than 10 PCE in stock

The NYTRO NTO-B3 Barbless Method Bait Spike Hooks to Nylon from the B3 series are designed for targeted fishing for large, powerful fish. With a leader length of 10 cm, they offer a compact and durable setup for demanding method feeder situations.

The rig features a bait spike in a loop rig, allowing for quick and precise attachment of wafters and (pop-up) mini boilies. It features the robust Sublime Power Rig Mono combined with the barbless NTO-B3 Specimen hook. This heavy-gauge hook with an inward-curved eye ensures high stability and secure hooking performance under difficult conditions.

Features:

- Pre-tied with NTO-B3 Specimen Strong hook
- Barbless
- Heavy-gauge wire with inward-curved eye
- Hook leader length: 10 cm / 4”
- Bait Spike in loop rig
