More than 10 PCE in stock

The NYTRO NTO-B3 Barbless Big Fish Hooks to Nylon were developed for targeted fishing for large, powerful fish in wild and adventure lakes. With a leader length of 25 cm, they are particularly well-suited for presenting soft natural baits directly on the hook.

These rigs are ideal for shrimp, meat, corn, ragworms, or herring. Made from extra-strong Sublime Power Rig Mono and equipped with the barbless NTO-B3 Specimen hook made of heavy-gauge wire with an inward-curved eye, they offer high stability and a secure hold even under heavy strain.

Features:

- Pre-tied with NTO-B3 Specimen Strong hooks
- Barbless
- Heavy-gauge wire with inward-curved eye
- Hook leader length: 25 cm / 10"
- Suitable for soft natural baits such as shrimp, meat, corn, bloodworms, and herring
