More than 10 Stk. in stock

All 5 Watercraft DNA Enzyme-Activated Smoke Wafter varieties in a complete test bundle.

Perfect for trying out the entire range and finding out which variety works best in your own waters. The Wafters are critically balanced hook baits with a strong “smoke” cloud and continuous attractant release immediately after casting.

Thanks to their light buoyancy, they present themselves perfectly on the hair rig while remaining very stable on the rig—ideal for cautious fish and heavily fished waters.

Features:

- All 5 available Watercraft Smoke Wafter varieties
- 25mm/30mm diameter each
- Test all varieties
- For different waters & conditions
- Ideal for trying out and combining
