Watercraft DNA Wafter 25mm/30mm Sample Pack
All 5 Watercraft DNA Wafter varieties in a sample pack at **a special price**. Ideal if you want to try out the entire range or always have the right wafter on hand for different conditions.

They are **perfectly balanced** and feature a lower density than conventional boilies, allowing for an extremely effective presentation on the rig. Each variety of our Wafters is made with the respective **High Range boilie mix**. Furthermore, they are enriched with our unique **DNA feeding stimulator**, which releases feeding signals immediately upon contact with water.

We spent a long time fine-tuning them to ensure a perfect balance between stability and the release of ingredients. Although they work perfectly in the water, they remain surprisingly stable. They prove their worth even under difficult conditions, such as in waters with high whitefish populations. The larger variants are particularly ideal for this!

Product information

Specially developed for fishing in quarry and natural lakes, the large Wafters allow you to fish with eye-catching yet lighter baits. This huge advantage can definitely make all the difference! During our test phases, we were able to catch carp in several waters, some of which hadn’t been caught in years!

Varieties:

- The Secret of the Sea: Dark Brown Squid & Octopus, Sweet Plum
- Loki SP: Dark Red Oriental Spice, Crayfish
- Fortuna HR17: Light Red Shellfish, Liver
- Royal Corn: Yellow Corn, N-Butyric
- Caribbean Dream: White Pineapple, Milk Cream

Characteristics:

- 25/30 mm diameter
- Perfectly balanced
- Made with the respective High Range boilie mix
- DNA feeding stimulant
- Ideal for selective fishing for large carp
- Special price instead of buying individually
- Handmade in Austria
