3 Stk. in stock

Diameter:	11 to 14 mm
Flavor:	fishy
Design/type:	Pop-ups

Product information

The Mainline Mini Pop Ups 13mm are compact, highly buoyant hookbaits from the Base-Mix Range and were developed for modern, subtle bait presentations. Their smaller size makes them particularly suitable for heavily fished waters and situations with high fishing pressure.

Their reliable buoyancy ensures a stable bait position over extended periods, while the continuous release of attractants creates a constant lure effect in the immediate feeding zone. As a result, the pop-ups remain effective and eye-catching even during longer sessions.

The 13mm size allows for versatile rigging options and is ideal for subtle or minimalist presentations in challenging waters. **Available in the flavors ISO Fish, Cell, ISO Sweet, and Essential Cell.**

Features:

- Compact 13mm pop-ups for unobtrusive presentations
- High, reliable buoyancy
- Consistent attractant release in the water
- Ideal for high fishing pressure
- Versatile for modern rig systems
- Part of the Mainline Base-Mix Hookbait Range
- Stable buoyancy over a long period
- Contents: 150 ml can
