As its name suggests, we developed the choddy for the now very popular chod rig and the hinged-stiff rig.
The Choddy has an outwardly curved eye. Its tip is extremely sharp and does not dull even under the most difficult conditions. Anglers like Jim Shelley and Nick Helleur swear by this hook and have tested it under the most difficult

conditions.
The matt, non-glossy coating gives the hook perfect camouflage and prevents the fish from being deterred. This hook is an absolute must-have for every stiff-rig angler.
Due to its large hook bend, the Choddy holds very well in the fish's mouth.
The inwardly curved point prevents the hook from working unnecessarily in the fish's mouth during the fight. In short, the Choddy is an excellent hook.

The Choddy is used by: Thomas Talaga, Christopher Paschmanns, Darrell Peck, Nils Elders, Daniel Brünkmans, Max Brodehl and many more from the team.

- For use in combination with stiff (nylon) leaders and fluorocarbon.
