7 PCE in stock

Korda Wide Gape XX

Forged from two wire thicknesses thicker than their normal brothers, the XX hooks are Korda's answer to the most extreme situations on the water: giant carp, hook and hold fishing, obstacles and weed. Like all Korda hooks, the XX models are

Product information

manufactured by the best Japanese specialists according to Korda's requirements. Despite their thickness, the XX hooks are extremely sharp!

The Wide Gape XX and Kurv Shank XX models are available, two shapes that perfectly cover all fishing situations and rigs. Whether you are fishing on the river, on a quarry pond bristling with obstacles, at long distances on a natural lake or for the giant carp of Rainbow Lake, the XX series will be your faithful partner. Our team anglers and developers have put the hooks through their paces in the toughest situations and are simply thrilled. Countless huge carp weighing up to almost 40 kilos were caught during the test phase. Tie the XX models to solid components such as N-Trap, Kamo or ArmaKord and you have a weapon for all situations that require heavy artillery!
