from 13,99 EUR / PCE

incl. 13% VAT plus Shipping

 Delivery **Mon 19. Oct - Tue 20. Oct 2026**

More than 10 PCE in stock

Probably our best boilie—Fortuna HR17! We spent a long time perfecting this bait to ensure that it stands out from conventional boilies and makes THE difference. And we've succeeded!

Product information

Our secret? A unique blend of fermented substances and pheromones that we discovered in the Far Eastern "koi scene." The fish love it so much that they specifically pick out only this boilie. And that's not all! We've also added natural attractants and ingredients such as liquid liver and betaine to trigger additional feeding stimuli.

We've also found the perfect flavor for the fish by adding high proportions of LT squid meal, brewer's yeast, and cream powder. The little spicy touch is achieved by the fantastic red bird food with fermented flours. And all this also guarantees ideal digestion for the carp!

Fortuna is one of our most popular boilies and has given countless anglers some truly magical moments on the water. If you are looking for a competition boilie that makes a difference, then Fortuna is the perfect choice! We stand for the highest quality in every feed we produce.

Try it for yourself!

You can find matching pop-ups, wafers, liquids, pellets, etc. here: [Watercraft Fortuna HR17 Range](#)
