More than 10 Stk. in stock

Are you an ambitious carp angler looking for the perfect bait? Then we have something for you!
Our "Caribbean Dream" is the piña colada for our carp and will delight you.

Product information

This sweet, creamy boilie with an exotic touch will enchant you and your target fish alike. We use high-quality milk proteins to give it its creamy taste and make it work fantastically in the water. The structure is created by coconut flakes, which soak up water faster than the steamed boilie dough.

With just the right amount of butyric acid, the "Caribbean Dream" sends out optimal feeding signals and can be fished all year round. This bait really comes into its own in cool to cold water temperatures. In spring, late fall, and winter, this boilie is perfect in combination with a soluble stick mix.

The white-beige color stands out visually from the bottom and is sure to impress your target fish. Try it now and catch your dream fish with our "Caribbean Dream"!

You can find matching pop-ups, wafers, liquids, pellets, etc. here: [Watercraft Caribbean Dream Range](#)

We also offer attractive bulk prices on High Range Boilies (excluding special offers):

- from 2 pieces - 3% discount
- 4 or more items - 6% discount
