Even higher quality and more intense ingredients. Perfect value for money!

A boilie like a banana milkshake. Very creamy birdseed bait infused with very rounded banana flavors. A very sweet, slightly fatty bird food has been used here, giving this bait its very special touch. Highly catchable and strong like Banana Joe!

THE all-round bait that catches fish all year round!

You'll be amazed at how quickly the carp take to this bait. Eat, eat, eat again and again...

The "Pro Range" is our more affordable bait line and offers perfect value for money.

These are really good boilies with a perfect surface structure. In addition, the baits are optimally utilized by the carp.

Especially for anglers who need more feed, the Pro Range is an ideal solution that is also easy on your wallet.

The composition of the high-quality raw materials has been chosen so that the bait is quickly digested and excreted by the fish. These

boilies are also highly attractive and catchy. Ideal for long-term strategies or larger feeding sessions.
