Product information

NEW! V4.0 - the mix has been completely revised and enriched with natural stimulators (activated).

Even higher quality and more intense ingredients. Perfect value for money!

A wonderful fishmeal boilie with over 35% fishmeal content and chicken liver.

Enriched with spirulina and a generous dash of liquid chicken liver, no flavorings are used here. A completely natural bait, without colorants, which is an absolute insider tip, especially for overfished waters!

Natural ingredients and digestive aids are the key to success here. A generous dash of liquid liver further enhances the attractiveness of the bait.

An absolute gem in terms of value for money. You won't find such a high-quality fishmeal boilie at this price anywhere else!

The "Pro Range" is our more affordable bait line and offers perfect value for money.

These are really good boilies with a perfect surface structure that have proven to be extremely effective.

The baits are optimally utilized by carp. The Pro Range is the ideal solution for anglers who need more bait, while also being easy on the wallet.

The composition of the high-quality raw materials has been chosen so that the bait is quickly digested and excreted by the fish. These boilies are also highly attractive and effective. Ideal for long-term strategies or larger feeding sessions.
