2 PCE in stock

These Dark Matters leaders are equipped with our Heli-Safe system and can be fished with any helicopter setup. Whether with a conventional hook-link or a chod rig. Tungsten cores are incorporated into this leader, which ensure that it lies flat on the bottom. It is also equipped with the Chod-Safe system, which ensures that the hook-link can detach from the

Product information

leader if the main line breaks. The hook link can be easily attached with a QC ring swivel.

The other end of this leader has a welded loop to which either your main line can be attached or to which the leader can be easily removed. The loop-to-loop method is the ideal attachment method.
The Dark Matter leader material is very abrasion-resistant and has a breaking strain of 40lb.

- Length: 50cm
