Product information

Sportex Touron Carp

Art.Nr.: 32595 / manufacturer: Sportex

from 286,99 EUR / PCE

incl. 20% VAT incl. Shipping

Delivery **Thu 05. Nov - Fri 06. Nov 2026**

1 PCE in stock

The Touron Carp series are 4-piece rods that can be easily transported in a rucksack or in short cases thanks to the split. Despite the multiple splits, the action of these rods is in no way inferior to the 2-piece rods. They have comparable casting and damping properties and also have considerable power reserves in the backbone. Another special feature is that the Touron Carp can be fished in two different lengths.

The 12ft. models can also be used as a 9ft. stalker / boat rod if the penultimate section is removed. The 13ft. Models can be used as a 10ft. version. This combines two rods in one rod. The rods have slim SIC guides from Seaguide (starting guide size 50), a continuous EVA handle and a FUJI DPS reel seat.

Length: 366cm / 12ft

- Parts: 4
- Rings: 6
- Transport length: 97cm
- Weight: 345g
