4 PCE in stock

The BASIX Wide Gape hook has been designed to be the perfect all-round pattern that can be used straight out of the box for a variety of rigs without the need to add many other components. Whether you are fishing bottom baits, pop-ups or wafters. The aggressive, inward-set eye ensures that the hook grips quickly and sets in the mouth without you having to fit

Product information

additional kickers or shrink tubing.

The Basix Wide Gape hook is made from our 'X' gauge wire and is therefore suitable for use in both the UK and Central Europe. In addition to the strength, this hook also has an unobtrusive black nickel finish. The point has been designed to be very durable and it is possible to catch several fish with the same hook before it needs replacing. However, check that it is still sharp each time you cast and replace it if not. The shape is based on the incredibly effective original Wide Gape hook that has caught countless big carp over the years.

BASIX Wide Gape hooks are available with and without barbs in sizes 2, 4, 6 and 8.

Each pack contains ten hooks.
