More than 10 PCE in stock

This is a very strong flavor in powder form.
Bite Flavor are perfect for producing boilies or can be used successfully for feeder and match fishing. This is also a top option if no liquid attractants are allowed, e.g. for match fishing.

These flavors are unstretched, highly dosed and of the highest quality. We therefore had to fill them into a 50ml glass bottle.
Many flavours are not recognizable to the carp and are therefore ineffective. Not so with our products. Here too, we have taken meticulous care to ensure that we provide highly effective attractant flavors that generate even more bites.
These flavors are produced for us in England.

Caution: Please do not overdose.

Recommendation:

- Dough (uncooked) max. 2ml per 1kg of dough mix
- Boilie batter (steamed): max. 4ml per 1kg batter mix

Product information

- Boilie batter (boiling): max. 5ml per 1kg batter mix
