from 4,89 EUR / PCE

incl. 20% VAT plus Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

More than 10 PCE in stock

Solar Tackle Strong Hold hooks have undergone the most intensive testing program and have proven themselves on the toughest waters in Europe. They are super sharp and incredibly strong. Steve Briggs and Martin Locke have not used any other hooks since their launch and even when locked-up fishing on the ultra-hard French Rainbow Lake, none of the Strong Hold hooks have been bent open. The new Camo Mute coating is not only inconspicuously matt and very resistant, it also protects the hook point, which stays sharp for longer. Available in the following sizes:

- 1
- 2
- 4
- 6
- 8
- 10
