from 9,79 EUR / PCE

incl. 20% VAT plus Shipping

Delivery **Thu 05. Nov - Fri 06. Nov 2026**

2 PCE in stock

Korda IQ Hooklink

Have you ever used a leader material that practically never gets tangled? And one that is almost invisible to the fish? And one that makes it almost impossible for the fish to get rid of the hookbait? No? Then look forward to our IQ fluorocarbon

Product information

material!

IQ Fluorocarbon has the same refractive index as water. This makes the line almost invisible.
The line is stiffer than normal nylon, which improves its anti-tangle properties and makes it difficult for the fish to blow the hookbait out again.

We at Korda have extensively tested the IQ Fluorocarbon in all strengths (10lb to 25lb) and were so impressed that we have added it to our already large selection of leader and strike lines. The 10lb version is ideal for slightly finer fishing, 15lb is an all-rounder line and the 25lb IQ produces a truly impressive stiff effect.
