Product information

Teflon brake discs for Daiwa reels

Art.Nr.: 25028 / manufacturer: Service und Ersatzteile

from 7,00 EUR / Stk.

incl. 20% VAT plus Shipping

Delivery **Fri 06. Nov - Mon 09. Nov 2026**

More than 10 Stk. in stock

Teflon washers for Daiwa reels The advantage over the standard felt washers and Teflon washers is obvious: - The Teflon disks provide faster brake adjustment.
- Advantage of laying out with the boat, because no rugging comes from the brake.
- Teflon disks are inserted dry into the spool, nothing needs to be greased (nor should it)- Frost-resistant down to -270 degrees Celsius, so no more problems for people
who fish in winter or in adverse conditions.
- Heat resistant up to 260 degrees Celsius- Due to the wax-like surface, the transition from standstill to movement takes place without jerking- No material can stick to Teflon - no water, dirt and the like- Completely overlying disk, thus maximum static and dynamic friction with low surface tension- Also available for Baitrunner brake systems
In our eyes the best brake system.
Simply replace the felt discs with our Teflon discs - no greasing required, done!
