from 3,84 EUR / PCE

incl. 20% VAT plus Shipping

Delivery **Thu 05. Nov - Fri 06. Nov 2026**

More than 10 PCE in stock

The Maggot Clip has been specially developed to enable the easy baiting of maggots on a carp rig.
The special design of the clip makes it easy to attach maggots without the use of baiting needles. The small eye can be attached to the hair or to a Korda Micro Rig Swivel to realize different variations.
This simple but effective method is a must for any angler who wants to use maggots.
We like to use maggot rigs when the water is still very cold and maximum attraction is required.
Especially under 10 degrees water temperature white fish are not yet so active and therefore targeted fishing for carp is possible.
The Maggot Clip is available in 4 sizes - matching the desired hook size.

Content 10 pcs.
