Delivery **Thu 05. Nov - Fri 06. Nov 2026**

1 PCE in stock

Shrink tubing is used to make a wide variety of rig shapes. Everyone certainly knows the Line Aliner, but the Whity-Pool Rig has also become a classic. After heating, the shrink tubing shrinks to about a third of its original size Korda Shrink Tube is perfect to improve the rotation of the hook on modern rigs, e.g. Line Alinger or Whity-Pool Rigs can be made perfectly with it. The tube remains exactly in the desired shape after shrinking and cooling.

Product information

It shrinks to about a third of its original size.
Therefore, 1.0 mm is a guide for fixing the hair to the hook shank,
1.2 mm shrink tube for hooks size 6 - 10
1.6 mm version for hooks size 1 - 4.

Content: 8 pieces, each 55 mm long
