1 PCE in stock

As an extension of the successful Singlez system, we have now developed the brand new BLACK SINGLEZ in collaboration with JAG Products.
The Black Singlez system has the same features and specifications as the original Singlez system, but is lighter and of

Product information

course in black.
A real gem and must-have for every tackle fetishist! :)

Many anglers are looking for a functional and stylish set-up. Korda boss Danny Fairbrass was no different. He designed the Singlez a few years ago, a system that combines the look of a set-up with single banksticks with the stability and perfect look. Its design provides an extremely stable structure that prevents the usual twisting of the buzzer bars. Initially just a prototype, it attracted so much attention that it is now available as standard thanks to the cooperation with the renowned English stainless steel forge JAG. With its know-how, JAG guarantees high precision and the best possible quality. The Singlez range includes various banksticks, buzzer bars and other accessories.

Singlez Upright are the individual banksticks for mounting on the buzzer bar.
Available in three different lengths, you can adapt your set-up to the conditions at the fishing spot.

Singlez - a look that will be the envy of many!
