from 3,84 EUR / PCE

incl. 20% VAT plus Shipping

Delivery **Thu 05. Nov - Fri 06. Nov 2026**

6 PCE in stock

Barbless - without barbs

DF's most popular loop and boom combination with the Klor hook. These ready-tied loops are designed for use with our pre-tied booms, but they can also be used in conjunction with home-made booms.

Product information

When loop and boom are connected, they form the perfect combination rig. Simply attach the Klor Loop Rig to the loop of the boom - loop in loop - and you're ready to go, with the added benefit that the loop section can be changed quickly.

The Klor loop is tied like a blowback rig, but with Danny's special knot instead of a rig ring. A shrink tube is not required as the inward curved eye of the Klor hook helps the hook to tilt and grip securely.
