Product information

These pots optimally transfer the heat of the Fox infrared stoves to enable **more energy-efficient cooking**, which will save you time and money in the long term thanks to the reduced cooking times and energy costs.

- Hard anodized aluminium pots for boiling water or food
- Equipped with a heat exchange system that sits directly on the Fox Infrared Stove for maximum efficiency
- Fox Camo neoprene cover that can be left on the pot for improved insulation while cooking
- With folding handle that also secures the lid when being transported
- With 0.65l or 1.25l capacity
- In the 1.25l model, the infrared stove can be stored in the pot together with a 230 gram gas cartridge or alternatively a large 500 gram gas cartridge for compact transportation
- In the 0.65l model, the infrared stove or alternatively a 230 gram gas cartridge can be stowed for compact transportation
