1 PCE in stock

These gems are equipped with the finest components ever fitted to a Nash rod:

The matte black ALPS ARD reel seat brings custom flair with its minimalist design, the Pacific Bay Minima guides, with 50mm starting guides on the 9 and 10ft models, and the tangle-free Anti-Frap tip guide ensure probably the best casting

Product information

characteristics in the history of Scope rods.

Carbon line clips and back stops, which secure the rod to the buzzer bar, and the matt black Para-Cord handle give these rods an exceptional look and ultimate performance. Available in a very compact 6ft version up to an ultra-strong 3.5lb version for the toughest demands.

Made from extremely strong, high modulus blanks, a combination of 24 and 30 ton pressed carbon, reinforcing cross wrap and a 1K mat, these newly available Black Scope rods are beyond comparison.
