2 PCE in stock

The two-stage line clip allows the line to be fished free-running or fixed, which ensures even better bite detection, even when fishing with slack line. An O-ring fine adjustment for different diameters of mono or braided main lines has also been installed. The Bobbin Sets can be extended with a whole range of additional accessories such as cords, chains, additional

weights, magnetic holders and the ingenious Glow Pipes. Glow pipes light up the bobbin through the fiber optic output of the R3.

The design is rounded off by a central isotope slot. All Bobbin Kids have a sandblasted, matt finish, smart Nash logos and clear heads in an extremely chic "frost look".

Everything needed for an effective and stylish bite display now comes from one package. The Siren Bobbin Set consists of smart acrylic bobbin heads, 8cm chains and anchor brackets.
