The Nash Pinpoint hook series uses the latest technology in steel, CARBIDE 617, resulting in up to 50% stronger hooks that are still much lighter than all previous Nash hooks. The hook point and penetration is exactly what you would expect from Pinpoint - extremely sharp and extremely aggressive.

- Stronger, sharper and lighter thanks to Pinpoint's improved manufacturing process
- Outward curved eye, perfect for chod, stiff and D-rig presentations
- Enlarged eye for easier threading of thicker diameter leader materials
