out of stock. Delivery up to 14 days, if available from manufacturer

Feedstim Powder is a 100% soluble appetite stimulant in powder form - the powder version of the legendary Feedstim XP.

It is very effective in paste, stick, bag, spod and boilie base mixes and for coating wet hookbaits to stimulate a fast and intense feeding response from nearby fish.

Features of Feedstim XP powder:

- Powder version of our legendary Feedstim XP liquid
- Medium-fine, rust-brown, granular powder
- Gives baits a very attractive, salty, savory taste
- Virtually flavor free. Great with any bait or hookbait type
- Highly soluble; very effective in all-season baits
- Very concentrated. Recommended for up to 5% inclusion
- For use in any boilie/hookbait mix, pastes and for coating hookbaits
- This product will change the attraction potential of your bait
- Use 10-20 g/kg in base mixes, 20-30 g/kg in particles, 30-50 g/kg in hookbaits

Product information

Application tip:

As a bait coating: moisten the pellets, boilies or hookbaits with a liquid and then dust them with Feedstim XP Powder. This allows it to dissolve and penetrate deep into the bait to give it a strong attraction boost.

Customer guidance:

This product should be stored in a cool, dry place out of direct sunlight.

As this is a purely natural product, there may be physical variations between different batches.

This is normal and does not affect the performance potential of the product.
