from 3,84 EUR / PCE

incl. 20% VAT plus Shipping

Delivery **Thu 05. Nov - Fri 06. Nov 2026**

1 PCE in stock

These Solidz PVA bags have a thicker material thickness to extend the dissolve time of the bag. The UK manufactured PVA film is more than twice as thick as the original Solidz PVA bags, which significantly increases the dissolution time. Ideal when fishing long distances, in deep water or in wet and rainy conditions.

Product information

Made from the highest quality material available with a neutral pH value. The original Solidz PVA bags are extremely robust, but these thicker versions set new standards - with no residue in the water and free from any aroma.
Double bagging in deep water is now a thing of the past and these bags make tying PVA bags easier and faster. The thicker bag is also inherently stronger, making it the ideal choice for long casts with heavy leads.
Available in all popular sizes. Supplied in packs of 25 (XS/S) or 20 (M/L).

- Made from high quality PVA material
- Increased break-up time
- Perfect for distance fishing or deep water
- Special design offers ultimate strength
- Residue free and flavor free
