Delivery **Thu 05. Nov - Fri 06. Nov 2026**

2 PCE in stock

The most versatile and secure adjustable zig system to date. The unique curved run clip locks onto the line under tension but allows slack line to pass through unhindered. To adjust the depth, simply let the Zig Float line run free from the reel to allow the float to rise, or carefully reel in the line to allow the float to descend and fish deeper. When a carp is hooked, the Run Clip locks into place and for the first time allows a lead to release on a free-running system. This means ultimate safety during the fight with weed or obstacles.
